AI-ENABLED SCHOOLS · CBSE

Preboard papers in minutes, teachers in control

AI agents study the official CBSE pattern and draft new board-style questions.
Every question needs a teacher's approval before it can appear in a paper.

AI agents | MCP server | CBSE 2026-27 | Teacher approval

Presented by Lavanya Srivastava · Lavanya AI Consultancy

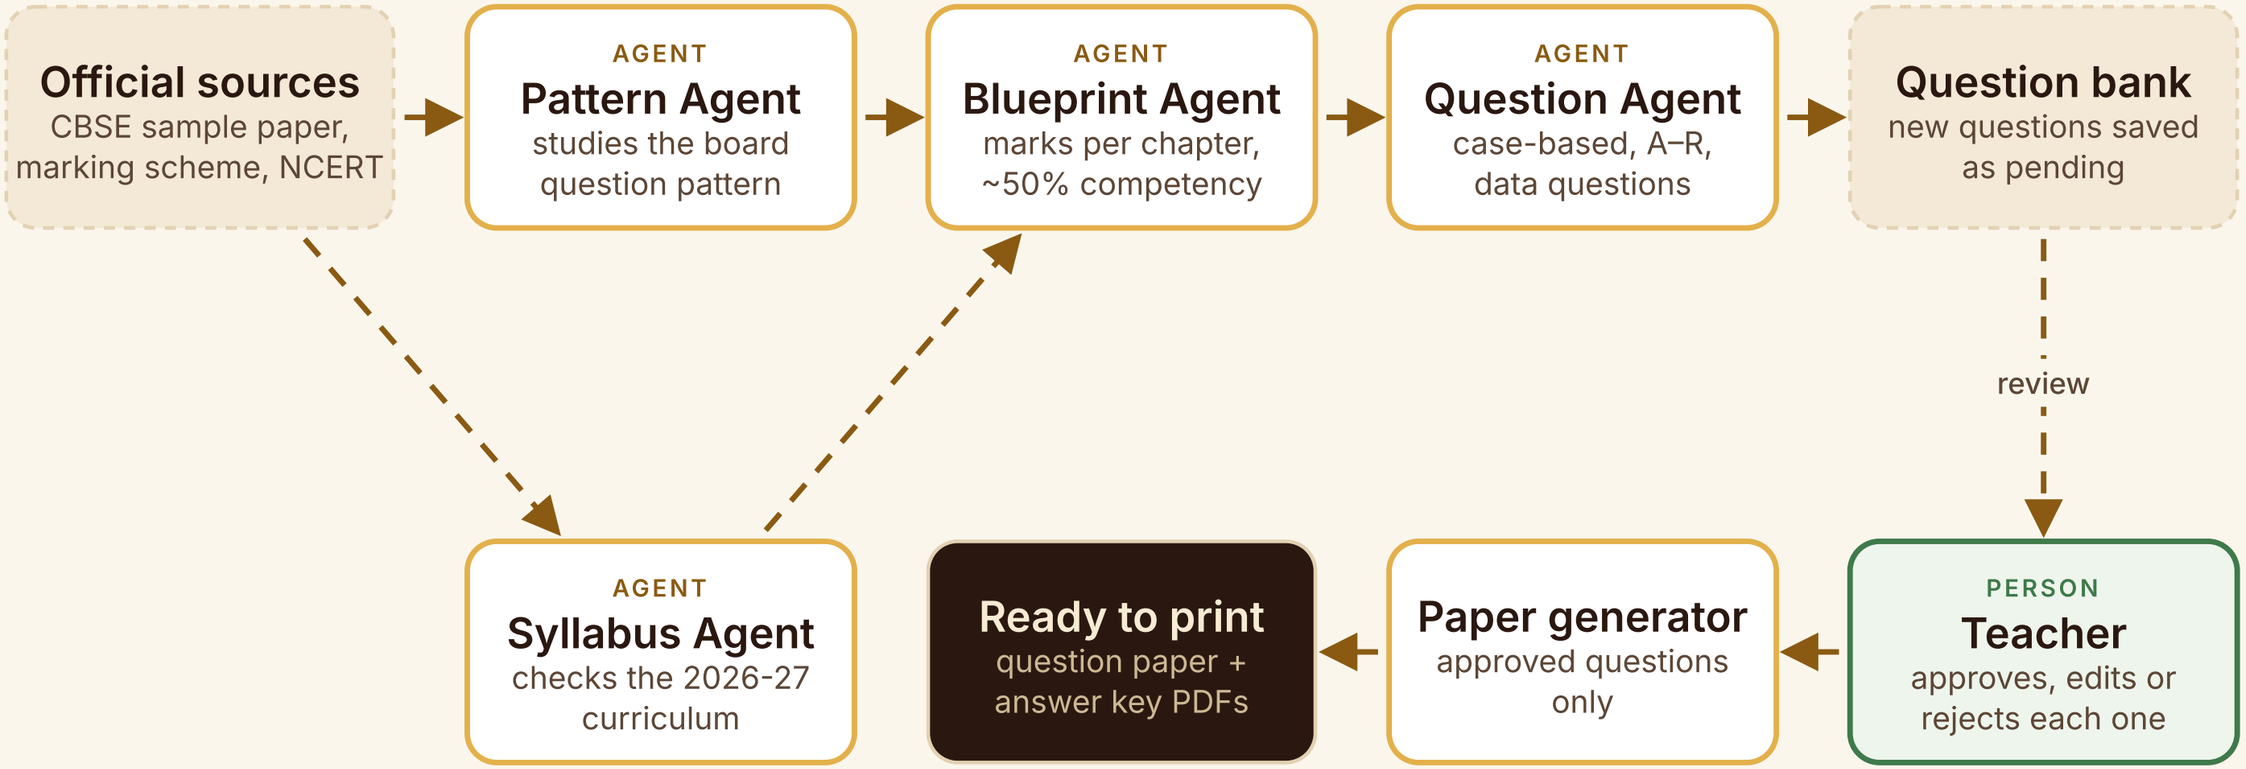

THE PROBLEM → THE SOLUTION

Hours of paper-setting become minutes of review

	Before	With Preboard Generator
Time for one paper	4–6 hours	about 15 minutes (target)
Matching the CBSE pattern	Count marks by hand	Blueprint built from the official 2026-27 sample paper
Writing questions	From memory, guides, old papers	AI drafts new CBSE-style questions with marking schemes
Quality control	None	The teacher approves every question
Answer key	Typed separately	Generated with step-wise marking

ARCHITECTURE

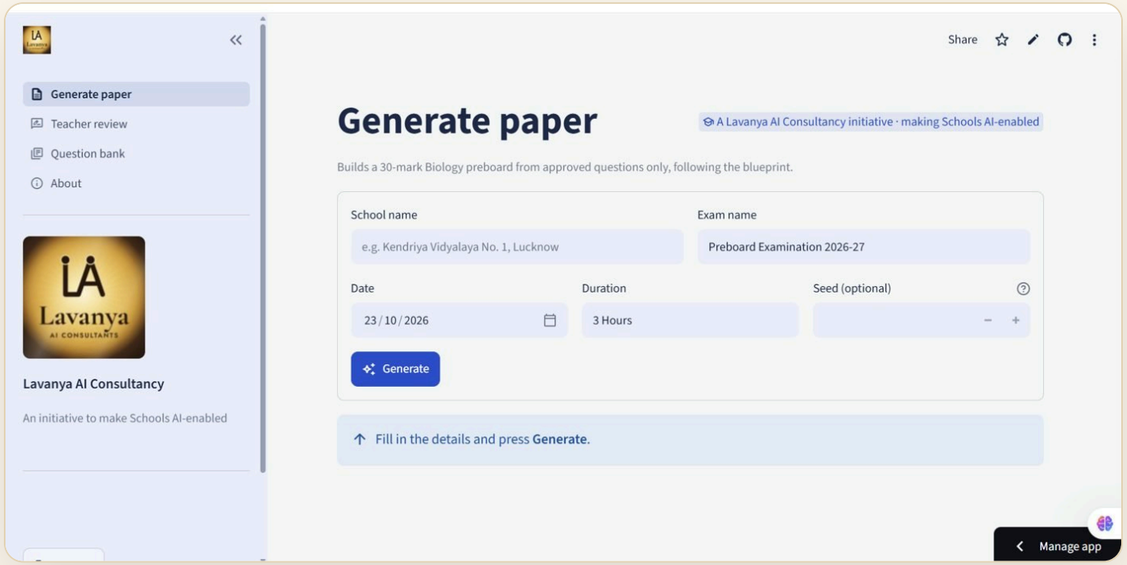

Four agents, one teacher

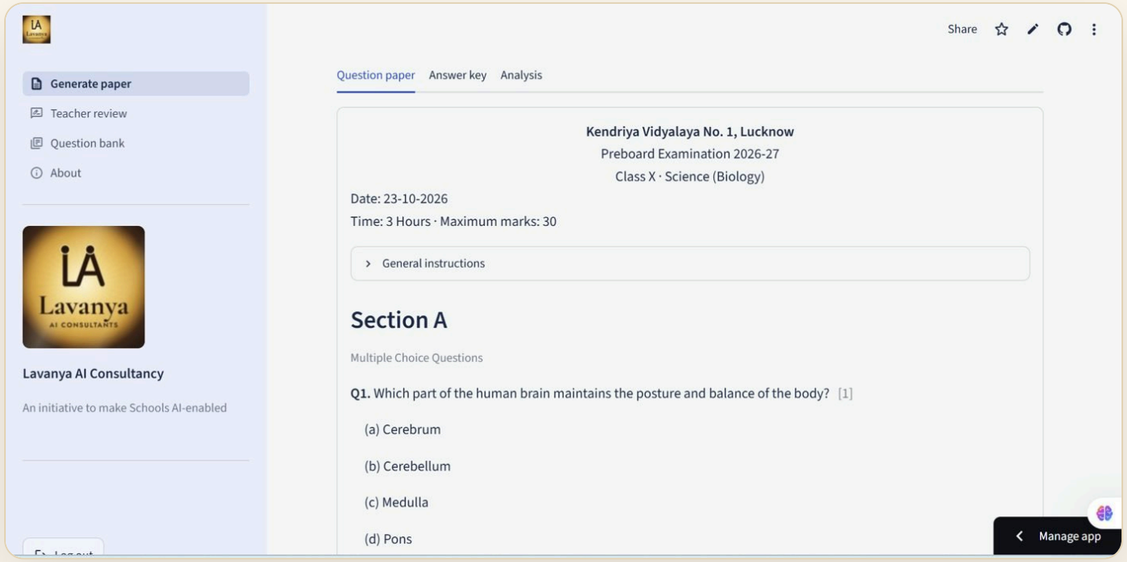

AI drafts, the teacher decides. Agents work through an MCP server, with no API key needed.

SEE IT WORKING

What the teacher sees

Generate a paper: school name, exam, date and duration.

The generated paper, ready to print with its answer key.

PAPERS AND COST

Board pattern, near-zero running cost

39 Q · 80

full Science paper, exactly as the CBSE 2026-27 sample paper

16 Q · 30

Biology preboard: MCQ, assertion–reason, short, long and case-based

Free

hosting on Streamlit Cloud with a Supabase free-tier database

Part	Technology
AI agents	Claude Code with instruction files, no API key
Agent tools	cbse-paper-mcp (official MCP Python SDK)
App and PDFs	Python 3.13 · Streamlit · fpdf2

NEXT STEP

Make your school AI-enabled

See how your teachers can produce board-pattern papers with answer keys in a fraction of the time, while staying in charge of every question.
